

Gill-Chin Lim

Curriculum Vitae

Dr. Gill-Chin Lim (1946-2005)

Scholar. Planner. Mentor. Leader. Poet. Gentleman. Friend. Dr. Lim was characterized as being generous, loyal, having charm and soul, and being an outstanding host and organizer. Dr. Lim has been described as influential to the best of planning and a role model. From his professional jobs, we observed a man who went beyond 'international' to function globally. He gained expertise and perfected both his content knowledge and his process knowledge. Over the span of his highly productive career, he maintained his focus on life, and the improvement of the environment in which life must be lived. Another form of Dr. Lim's intellectual leadership was his frequent initiatives in designing and organizing conferences and brokering interaction among diverse experts and students. In short, Dr. Lim's life was invested in developing and evolving 'humanistic globalization.' Dr. Lim believed that values are the key to guiding human beings to a brighter future.

He graduated from Seoul National University, Harvard University, and Princeton University. He served on the faculties of Northwestern University, Princeton University, University of Illinois at Urbana-Champaign, Michigan State University (MSU), and Korea Development Institute (KDI). Dr. Lim was MSU endowed Professor of Asian Studies in a Global Context and Dean of International Studies and Programs. He was also Distinguished Institute Professor and Dean of KDI School of Public Policy and Management.

His publications cover more than 80 refereed and invited articles, 32 books and monographs, and about 200 books chapters, papers in proceedings and reports.
